Enerphit the passive house approach to deep retrofit

February 1st, 2012 - Enerphit the passive house approach to deep retrofit
While the principles of low energy building apply equally for new build
and upgrades the reality is that hitting passive levels becomes much
trickier when retrofitting But the same components as for new passive
house buildings can be used and the building substance can thus be

Life cycle primary energy implication of retrofitting a

January 20th, 2019 - The construction of new low energy buildings is
important in the long term A significant reduction of the final energy
use for space heating can be achieved by retrofitting buildings to passive

house standard which is gaining increasing attention in Europe The
